## CALL FOR PAPERS

### “Donald Trump’s New America”

The polls, carried out a year after taking the office of 45<sup>th</sup> President of the United States of America, showed the extremely low popularity of Donald Trump among the American voters. Trump’s support after the first year of presidency was 39%, which is the worst result in the history of these surveys. Moreover, according to Gallup Institute respondents, America has lost the seat of the world leader for Germany and China. What is the home and foreign policy of “Trump’s New America”? Does Donald Trump’s presidency really weaken the United States?
